FOREWORD

The Jawaharlal Nehru Technological University Hyderabad is one of the largest affiliating Universities in the State of Telangana and in the country. The quality of education in the College / Institute affiliated to JNTUH thus reflects the quality of engineers from the State. It is therefore imperative that the University bears responsibility to ensure academic infrastructure and environment that promotes quality education. In this endeavor, the University has shown adaptiveness in curriculum design and laid down norms and regulations for effective implementation of the curriculum.

The quality of education will improve when continuous, objective and scientific methods are adopted. Hence, in the interest of developing the quality of education, better methods of evaluation have to be adopted. It is obvious that the need of the hour in the field of education or for that matter in any other field in our country now is accountability and autonomy. Accountability of the staff to the society and accountability of the institution as a whole to the society is required to turn College / Institute into centers of academic excellence.

The University presently has about 300 Colleges / Institutes affiliated to it, offering varied courses both at Under Graduate and Post Graduate levels, in Engineering, Pharmacy and MBA/MCA with the ever increasing demand of students in taking up engineering education and increasing interest of private Managements in establishing the technical Institutions. Greater awareness on the minimum standards expected of College / Institute for providing quality technical education and specially, availability of academic infrastructure for practical orientation has been prescribed in the University syllabus and curriculum. The role of University as a regulating body rests not only in prescribing the syllabus, but also in ensuring that the College / Institute are adequately equipped to implement the curriculum to achieve the desired quality of education, uniformly wherever the courses offered.

A comprehensive and objective assessment of institutions in terms of norms and regulations laid down can only be achieved through procedures and formats, enabling transparency and automation within a stipulated duration. The emphasis on infrastructure to support practical orientation of curriculum, accountability of institutions to the society, monitoring of institutions on a continuous basis, automation for faster processing, greater awareness of requirements and norms, opportunity to College / Institute for improvement of academic infrastructure are just a few of the revisions adopted towards University's continuous efforts as a regulating body.

Earlier a committee, viz. "Affiliation Regulations Committee" was constituted to review and recommend revisions to the affiliation regulations and procedures. The members of the committee were Prof. Suleman Siddiqui, Former Vice-Chancellor – OU, Prof. K. Lal Kishore, Former Vice-Chancellor – JNTUA and Former Registrar of JNTUH, Prof. G. The committee recommended minor changes to the existing regulations and the final recommendations of the Committee were placed before the Executive Council of the University for approval and which will be effective from the Academic Year 2020-21.

The endeavor of the University is to see that the standard and quality of education is improved University ensures that through proper infrastructure facilities, qualified faculty, lab equipment etc. are made available throughout the academic year to the students and not just at the time of Inspections only. The present regulations are a step forward to see that the College / Institute are made accountable and encourage the College / Institute to maintain academic standards throughout the year. Grant of affiliation to a particular

College / Institute does not mean in any way that the College / Institute can terminate the services of some of the faculty, not making available the required material for laboratory tests, not maintaining the equipment in working condition after the affiliation orders are passed. The Colleges / Institutes are legally bound to see that the student staff ratio is maintained throughout the year and the labs and other equipment for conducting various tests are in proper working condition. In order to see that the College / Institute maintains the academic standards throughout the year, it has been decided that the grant of affiliation will be subject to the Surprise Inspections, mandatory Biometric Attendance and Academic Performance of the College / Institute and report thereof will be considered for grant of affiliations. The efforts in bringing out these regulations will not only enhance the quality of education, improve the infrastructure, maintenance of academic standards, but also the accountability of institutions and provide proper guidance to the prospective students.

Prof. Ramamohan Reddy Kasa
Director I/c, AAC
